33<sup>rd</sup> Day of 90<sup>th</sup> General Assembly

### Bill of Interest

**HB 1158** by Rep. Richard Womack and Sen. Bart Hester received a Do Pass recommendation from the House Public Health, Welfare and Labor Committee yesterday. It could be considered by the full House as early as Monday. The bill would allow private individuals to engage in work (including carpentry, plumbing, electrical, etc.) without becoming licensed or registering with the State, even if that is currently required by a specific Board or Commission (e.g. plumbers), but those individuals cannot advertise their services as "licensed" or "registered".

The bill does not ban the State from continuing to offer licensing and registration, but the State could not prohibit a citizen from doing certain work unless it can establish, in a court or other governmental tribunal, that the "health and welfare" of Arkansas consumers requires the specific job at issue to be performed by someone who is licensed.

Proponents of the bill have argued the bill will allow people to earn a living without the extra licensure fees. On the other hand, the bill's opponents argue this creates an uneven playing field with some people not having to follow the same rules as others. Additionally, the bill transfers a tremendous amount of legislative power to the judicial system.

We have heard from all of the contractor groups and they are very concerned about this bill. We suspect businesses and manufacturers who hire work done may have concerns as well. We will continue to gather information, but this bill could move quickly through the process.
